FEBRUARY
2026

FROM THE DIRECTOR

-Julie Grynwich-

Did you know that February is National Library Lovers Month? This is the month to recognize the joy of reading! Put away your screens for a bit (unless you're reading a book on your device), and enjoy a fascinating story, or learn about something you're interested in.

This entire month is dedicated to the love of library buildings and all they provide; books and more! Libraries ensure that knowledge is available to everyone. They help raise the education levels of society and enrich the communities they serve.

We celebrate many things in February, but we are putting libraries at the top of the list! Come in and find a great book, or twenty, this month!

I also want to remind anyone who has a loved one with memory issues to bring them to our Memory Café on Tuesday, February 3rd at 9:30 am. This is an excellent program through the Area Agency on Aging, and we know it would be very beneficial and fun. Please join us!

I hope you have a safe and warmer February! Remember to show some love to your library this month!

YOUTH SERVICES - Kristy Good-

We feel love in the air! February is National Library Lovers Month! This is the perfect time to show your appreciation for your library. Write a Valentine to your library in Youth Services, get a library card, or spread the news of what you love most about your library! There are so many amazing ways to show up and show love for your library. We cannot wait to see what you come up with!

February is also Black History Month. We have amazing displays in Youth Services, with some fantastic books about leaders from Black History and how they changed our world. We encourage you to check it out!

February is the time we start digging in to plan our Summer Reading Program. This cold weather definitely has us thinking of warmer days. This year's theme, "Unearth a Story," is going to be a blast. We will be celebrating dinosaurs, paleontology and archeology. We are so excited! We have some great programs up our sleeves and know this will be a Summer Reading Program for...well...the history books!

We hope all of you are keeping warm and we cannot wait to hear what books have been keeping you company this winter!

See you in the stacks!

 - by Ursula K. Le Guin
- *James Herriot's Cat Stories*
- *Blitzcat*
 - by Robert Westall

KRISTY

YOUTH SERVICES

“I remember standing in the kitchen at 5 years old, baking with my Mom, telling her how I couldn’t wait to learn to read books by myself. From there grew my deep love of books, with my Mom having to take me to the library multiple times a week. I inhaled books like air. Neither of us are surprised I became a librarian.”

or call Jess at 269-932-7865

Adult Program

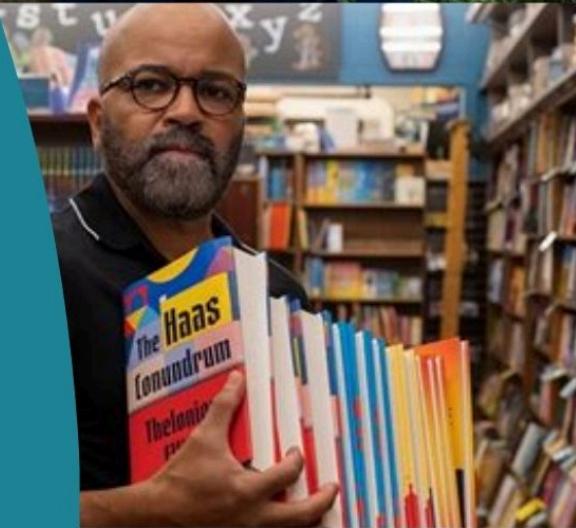

Harbor Country Film Group with Eve Moran

Saturday February 14th, 12:00-2:00 pm

American Fiction

On September 8, 2023, *American Fiction* premiered at the Toronto International Film Festival, where it won the People's Choice Award. The story centers on a serious literature professor and author named Thelonious "Monk" Ellison who becomes a smashing success only when he jokingly (and under a pseudonym) writes a novel of the type he loathes. This comedy-drama, rich on many levels, is based on the novel *Erasure* by Percival Everett and won director Cord Jefferson an Oscar for Best Adapted Screenplay in 2024.

In celebration of Black History Month.

Adult Program

Berrien Ecology: What Makes SW Michigan so unique?

**Saturday, February 21st
12:00 pm - 1:30 pm**

Southwest Michigan and Northwest Indiana are among the country's most geologically and biologically diverse regions.

Pat Fisher, president of Harbor Country Hikers, will cover a wide range of topics such as how our area was originally shaped by glaciers and the effect of thousands of years of wind that formed the dunes.

Following these phenomena, "Ecotones" were created that act as interfaces where different large-scale ecological systems meet and exchange energy and organisms.

In modern times, these unique structures face challenges, some man-made and some the result of natural environmental change and evolution.

Ultimately, we need to ask ourselves what role we will play in the preservation, diversity and sustainability of our unique environment in SW Michigan.
